Mokena Is Ready To Lower Boom On Sewer Shy Folks

This week-end marks the deadline for Mokena property owners to complete connections with the sanitary sewer system.

Notices were sent out to some 50 persons last month in time for them to have received them by Aug. 15. There were a few such notices that were mailed a day or two later.

The notices gave the recipients 30 days in which to have their sewer connections completed.

Records of Village Clerk Alvin Sorenson show that most of those notified have complied with the edict of the village board.

At the beginning of this week there were seven property owners who have not yet connected their sewers who will have to pay a connection fee of \$100. There were some eight or 10 others who signed for the sewer when only a \$10 deposit was required in lieu of a connection fee but they have not had the connections made.

Village Attorney Raymond Hollahan explained that after expiration of the deadlines for sewer connections the village may proceed along two different lines to enforce the sewer ordinance.

The village may obtain an injunction restraining the reluctant resident from using village water until his sewer connection is made, or the village can bring the offender into police court and have a fine of \$10 a day imposed for every day the violation exists.

The injunction process has been used in some communities and is quite effective, Hollahan said. The matter has been carried to the supreme court of Illinois, he added, and that tribunal has upheld the right of a municipality to take such action. In the case of an injunction the case would be taken into the circuit court. In the event the other method were employed the offending citizen would be taken into police court.

It was the hope of village authorities that this week-end would see all sewer connections completed.

Annex Tract On 95th Ave.

Annexation of a tract along 95th avenue off U. S. 30 to the village of Frankfort was approved by the village board there at its meeting last week.

Numbers of the lots taken into the village are, 17 thru 20 inclusive, and 34, 35, 39 and 40.

Signers of the petition asking to be annexed were Walter and Antoinette Ritt; Marion C. and Helen Bell; J. Howard and Paula Bell; John and Mildred DeRackin; Margaret Petterson; George R. and Agnes Maertin and Ernest H. and Eleanor Mersch.

There are some other property owners in the area who are expected to join the village soon. Sewer mains are being extended into the newly annexed territory.

The board also adopted a resolution necessary to get money from the state motor fuel tax fund allocated for street construction work in Frankfort. The two streets covered by the resolution are Kansas between White and Ash and Locust, between Pacific and Nebraska. The two improvements call for an expenditure of \$9,295, according to figures prepared by Village Engineer Robert Hamilton. Next year more money will have to be spent to complete the building of Kansas street but the village hopes to get grading and base courses laid this fall. Frankfort is waiting for the states O.K.

ADOPTS TAX LEVY

The New Lenox village board has adopted its tax levy ordinance for the current fiscal year. The village is seeking to raise \$13,300 thru taxes. The remainder of its funds must come from other sources.

Demonstrate Bicycle Safety!

These three young bicycl riders are demonstrating one of the signal tests to be given Mokena boys and girls at the Carpenter Street school this Saturday Sept. 15 at 2 p.m. The bicyclists from left to right are: Larry Newton, Mary Ann Collins and Douglas Lavezz.

Purpose of the Bicycle Safety Program is to reduce bicycle accidents and injuries by training boys and girls in safe riding habits. It is designed to carry on from year to year, checking up on those who have completed the program, and teaching bicycle safety to new riders as they become old enough to ride.

Each rider who signs up for the program is given a written classroom test on rules of the road and a riding test conducted by a police officer on one of the road test courses. The operating condition of the bicycle is also checked by the police officer.

The bicycle must be of the right size for the rider, and mechanical defects must be repaired before the test can be taken. Owners-riders who demonstrate that they can ride safely and expertly, and know and observe traffic regulations, are awarded an operator's certificate and a reflector-type bicycle tag free of charge. Riders who do not own a bicycle are awarded the operator's certificate, only.

Talk Of Annexation And Industry At New Lenox

The question of making land available for industry east of New Lenox and north of U.S. 30 is still a live one and this time proponents of the plan indicate they may seek to further aims thru annexation to the village.

Some two weeks ago Harry and Kirsten, brothers and owners of 76 acres between the Wabash and Rock Island tracks and fronting along U. S. 30 beginning just east of the Public Service Co. substation, had petitioned the county zoning board of appeals for reclassification of the land to I-2 which would permit heavy industry.

There was talk at the time that a steel fabricating plant which would employ around 800 persons was a prospect for the location. The zoning board met in the Rock Island station at New Lenox and there was a considerable number of objectors in attendance, as well as the other interested parties.

Uncertain as to what effect this opposition might have on the zoning board the petitioners withdrew their request for rezoning so actually there was no hearing held.

At the meeting of the New Lenox village board last week Elmer Essington, of Joliet, area realtor, appeared to introduce Joseph Phalen and H. W. Rumsfeld, both of Naperville. Phalen told the board that they were interested in having the tract, annexed to the village if some understanding could be worked out relative to how the tract would be zoned.

Phalen said they would be willing to have it zoned as a combination commercial, industrial and residential set up or for commercial and industrial purposes and leave out the residential. The portion along U. S. 30 could be used for business, it was suggested, with industry in the northern portion.

In order for the tract to be annexed to the village it would be necessary for the Wabash to also join in the petition as the railroad's property now lies between the Kirsten tract and the corporate limits.

Phalen was not pressing the board for an immediate answer but urged that it give some thought and consideration to the proposal. Mayer Stanley Gilmore then named Trustees Evan Drotts and Ronald Vrontasek to study the proposal and obtain more information for further discussion by the board.

Some of the board members unofficially indicated they were interested because the tax burden is now borne largely by householders and the presence of light industry would help lighten the load.

Some householders or householders have jumped the gun at New Lenox and as a result the contracting firm installing the sanitary sewer system there could paraphrase an oldie and issue this message:

"Alright, we give up! Who is it?"

It was brought out at the village board meeting last week (Wednesday) that some property owner or owners have made connections with the mains, contrary to the village ordinance, and as a result raw sewage is running into the system, not to mention wash water and heaps of soap suds.

Property owners can have connections made with the sewer mains but to do so they must have a permit and they must leave a gap between the line running to the main and the house. Final connection cannot be made until the mains and the sewage treatment plant are completed.

Harry Brockway, building inspector and as such is in charge of sewer inspections, will have the backing of the board in enforcing regulations covering sewer connections. One positive requirement is a permit. Persons who connect with the sewer without a permit face arrest and what could become an exceptionally heavy penalty in fines, it was pointed out. Permits may be obtained from Village Clerk Robert J. McCleary at the New Lenox State bank.

Everett Scherflow, resident engineer for Baxter & Woodman who designed the sewer, told village board members that the contractors expected to have the job completed in six weeks.

Meanwhile, search for the system will continue in the south end of the village. If necessary, it was said, authorities may use dyes to determine the source.

Robbery of the L. & M. service station, 192nd and Wolf rd., Mokena by two bandits has been cleared up thru the arrest of Lawrence Rusnak, 17, Palos Park, and Jerome Flynn, 24, who gives his address as Orland Park.

The pair is now in custody of Kankakee county authorities charged with armed robbery. They are alleged to have stuck-up a gas station on U. S. 54, five miles north of Kankakee on Wednesday night (Sept. 7) and then fled north.

At the southern edge of Peotone, race at 100 m.p.h. the fugitives encountered a roadblock set up by State Trooper Stewart Truse.

Rusnak, who lives at 8400 W. 192nd St., driver of a car, panicked and swung sharp to his left and at the same time slowed. The pursuing police car rammed the rear end of the fugitives' auto and that vehicle went spinning down the U. S. 54 for 250 yards, slapping down signs along the shoulder. The police car went thru the window of a service station at the intersection with South street and U. S. 54 and both officers were severely injured. The policemen, Robert Leverett, 40, and Wayne Butler, 35, are in Memorial hospital, Manteno.

The two suspects leaped out when it finally came to a halt and fled on foot. Rusnak was picked up around 11 o'clock--20 minutes after the wreck--trying to hitchhike a ride out of Peotone. He had some minor injuries which were treated at Memorial hospital and the youth was then locked in the Kankakee county jail.

Flynn was successful in stealing a car at Peotone, he later admitted according to a statement he made to Assistant State's Attorney Joseph McGarry of Will county, and started home. At 159th and U. S. 45 he was halted by State Troopers Earl Cantone and Joseph Egan who had set up a road block at that point.

They found a 38 pistol on his person and a 22 pistol in the car. Police said that Flynn readily admitted the robbery in Kankakee county where \$90 was taken and in the course of questioning related he and Rusnak had staged the hold up at Mokena where they got \$90, he said, and that on the night of Sept. 6 they robbed the Lamping service station at Plainfield of \$40.

Flynn, who is separated from his wife and three children told police he had been unemployed for a couple of months and had embarked on a robbery career in order to send his wife some money.

He said that the car used in the Kankakee robbery had been stolen by Rusnak at Evergreen Park Sept. 6. Flynn was released from the Cook county jail last December, he said, where he had served six months following theft of a car. He said he had worked for the Service Bakery and the Marquette Dairy after getting out of jail.

The Mokena robbery took place Aug. 19 Carl Edlund, 18, the attendant on duty at the time told police that after he had put gas in a car one of the occupants--Flynn according to his alleged statement--came back into the station and at the point of a pistol forced Edlund to lie on the floor of the storage room while he emptied the till and Edlund's pockets.

Gov. William G. Stratton, will spend tomorrow in the outlying townships of Will county as a part of his campaign for re-election on the Republican ticket.

He is touring the county by helicopter and is scheduled to arrive at Mokena at 5 p.m. landing in Community Memorial Park, according to information given Committee Chairman Harold Cooper, Residents in the area are invited to meet the governor at the park.

The governor is coming to Mokena from Frankfort. He is to arrive there at 4:39 at the park and leave at 4:54 for Mokena. The schedule calls for him to leave Mokena at 5:20 for New Lenox, landing on the Oakview school grounds, N. Cedar road, at 5:27 o'clock.

Cooper has been put in charge of arrangements at Mokena; A. H. Krusemark will be in charge at Frankfort, and Supervisor John Francis has been assigned to preside at New Lenox.

The governor is scheduled to visit Joliet on another trip. He is campaigning on his record and achievements.

Polls Open 12 To 7 In L-W Election

This Saturday, Sept. 17 taxpayers in the Lincoln-Way high school area are asked to vote on a referendum on two proposals--an increase in the educational fund tax rate and a raise in the transportation tax.

Under the present rate of 86 cents per \$100 of equalized assessed valuation the total amount that could be raised would be \$347,963. The rate is raised 13 cents, from 86 to 99 cents, as requested the amount extended would be \$400,562.

It cost Lincoln-Way approximately \$33,000 to transport pupils last year and it is estimated the cost will be about the same this year. The district received \$13,000 in aid from the state for transportation. The two cent tax rate brought in around \$8,000. The proposed five cent rate is expected to bring in approximately \$20,000.

Under the proposed five cent tax, with aid from the state, a spokesman said, the district should come out even on transportation costs.

The polls will open at 12 noon and close at 7 p.m. at the following polling places:

- 1 - Frankfort Village School,
- 2 - Mokena Village School,
- 3 - Ann Rutledge School, Lincoln Estates,
- 4 - Hutten School, New Lenox,
- 5 - Manhattan Village School.

CRASHES

Too much speed and not enough brakes caused Charles Fink, of 123 St. Jude (Marycrest), Joliet, to go into a ditch on the curve at the junction of Schoolhouse road and Front street in Mokena last Thursday afternoon, according to the police report. Fink, who is moving to Arbury hills, was given a ticket charging him with failure to have his vehicle under control.

Charge Pair From Area With Series Of Armed Robberies

Jump Gun On Connection With New Lenox Sewer

Someone reported at the board meeting that some residents of the community contend that no one can

come on their premises to inspect work or direct how work shall be done. Village Attorney William Penn stated that such persons who held such a belief were in error. The United States supreme court, Penn said, has handed down decisions stating that health officers and building inspectors can invade premises or even homes in the performance of their duties without warrants or writs.

Death Claims Edw. Yunker Orland Twp.

Edward Yunker, 84, a live long resident of rural Orland Park, died Sunday Sept. 11, in his home, 151st and Wolf road, after a lingering illness.

Mr. Yunker was born Feb. 28, 1876 on a farm, that of his parents John and Magdalene Yunker, where he lived all his life. When he retired from the heavy farm work a few years ago, his son Stanley E. who with his family also lived at the same place, took over working the farm.

Mr. Yunker was married May 4, 1914 to Mary Vitt who passed away in 1933.

Surviving is also another son, Kenneth of Blue Island and a daughter, Thelma Mrs. George Bruhn of Mokena; and ten grandchildren. Mr. Yunker was the last of his immediate family.

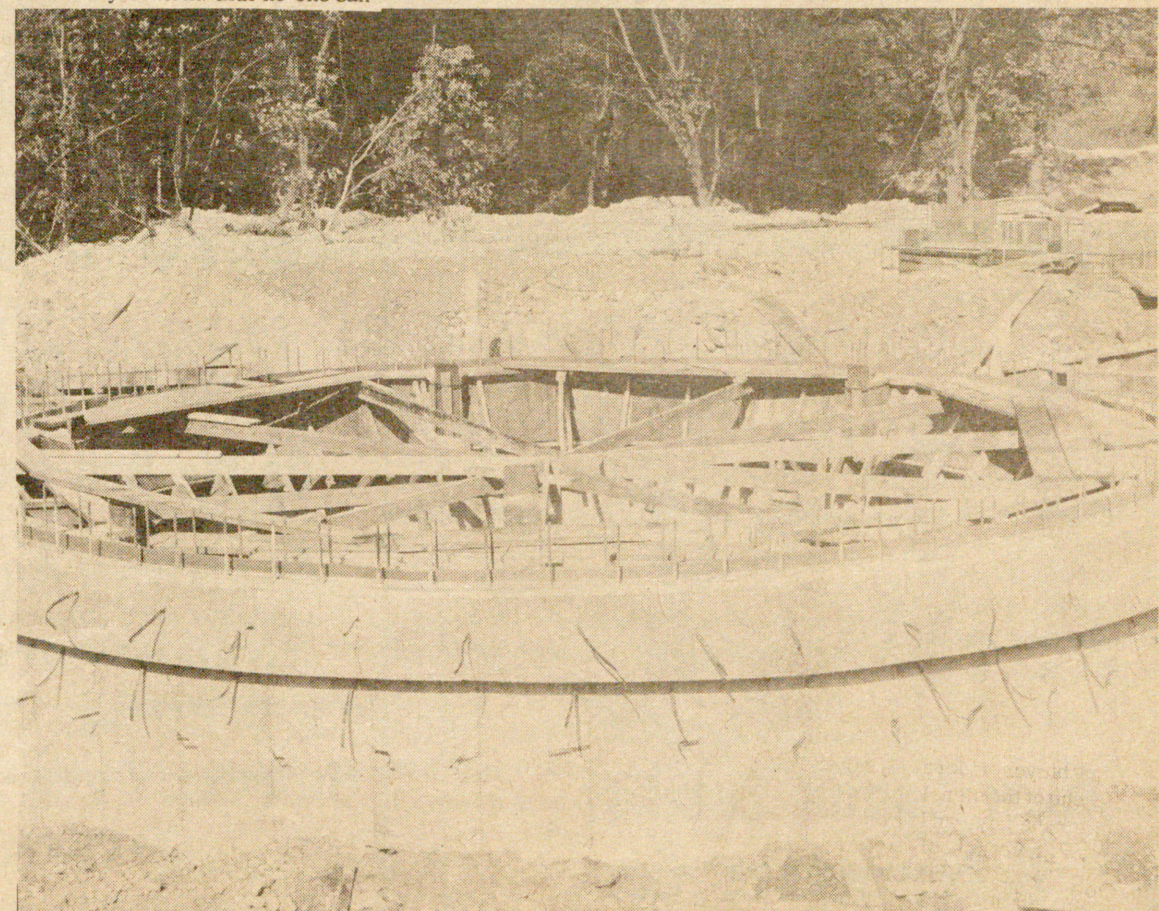

Removal was made to the Hirsch Funeral chapel in Tinley Park. Funeral services were held Wednesday afternoon in the St. John United Church of Christ, Mokena with the pastor, the Rev. Theodore Wimmer, officiating. Burial was in St. John's cemetery.

Fire Damages Trailer Home

Monday morning about 8 a.m. Mrs. William Hecht who lives on 191st st., Mokena, noticed smoke coming from the trailer home of Mr. and Mrs. John Bradon and family that is located on the Hecht property.

As no one was at home Mrs. Hecht notified the Mokena fire department. Firemen found the trailer filled with smoke but there was little fire. Most of the damage to the interior of the 33-foot two-bedroom trailer was from smoke and water, it was reported. The trailer was insured.

The Bradons moved there three years ago from Chicago Heights. Mr. Bradon works for an iron works co. in Aurora and Mrs. Bradon is employed at the Virginia Motor court, which has offered the family housing until they can rent a home in the Mokena area. The Bradons three children were in school at the time of the fire.

NEW LENOX SEWAGE TREATMENT plant is growing steadily these days. In the foreground here is one of these tank affairs used in the treatment of sewage--a trickle filter the engineers call it--while at the right rear is the building that houses

the controls and other machinery used in processing sanitary wastes. One thing about this New Lenox job it is really on a sound foundation--bedrock, and they don't come more solid than that, engineers point out.

150° hot water is always on tap in a flameless electric kitchen

Twin heating units in a new Fast Electric Water Heater heat water as fast as it's used. There's no "saving up" for it to do the laundry or dishes. It's always there—150° hot—when and where you need it.

No pilot to light. Once installed, a new Fast Electric Water Heater is on its own. There's no pilot to light or go out, nothing to smell. Compact tank-type models fit in a closet. Modern counter-top models fit in your kitchen or laundry (offer extra work space, too). No flues are needed. No vents or long pipe runs. Electric Water Heaters last longer than any other kind; many have been in service for over 20 years.

When you build, buy an appliance or remodel your kitchen, keep in mind the unique advantages of a flameless electric water heater.

Attention Motorists!

It's Schooltime!

With the opening of the 1960-61 school year last week thousands of children in the various communities in the area are now using the streets in traveling to and from their schools.

This presents an ever recurring problem for motorists that grows worse each year because of the increase in the number of children. The area's population is expanding rapidly as more families move to the suburbs and inasmuch as a large percentage of those are young couples the number of children can be expected to increase annually.

There are a number of communities that are without sidewalks along direct routes to the schools so youngsters are compelled to walk along the shoulders of the streets.

Motorists are advised to be constantly on the alert when using such streets and to slow their pace so a car may be stopped instantly if a child veers out onto the pavement. They are also advised to remember that it is best to have their car under tight control whenever they sight children at play in parkways. Youngsters at play are apt to forget in the excitement of a game and dash out into the street.

Motorists also are reminded that school patrols and school crossing guards are there to be obeyed. They also are reminded that when school buses stop to take on or let off youngsters vehicular traffic from both directions is also required to halt.

Children are taught safety at school and parents can also help by teaching safe habits in crossing streets. Parents also can help by setting good examples in safety practices. Too many adults are careless crossing thoroughfares, and too many are addicted to the practice of stepping out from between parked cars to cross streets away from the regular crossing lanes.

Many youngsters ride bikes to and from school and they should remember that the law requires them to follow the same laws that cover motor vehicles. They are supposed to obey stop signs and traffic lights.

Pedestrians, according to statute, are to walk against traffic when proceeding along the shoulders of streets and highways; bicycle riders go with traffic.

We have been quite fortunate in the area in that there have been few fatalities within the corporate limits of villages and we have been exceedingly fortunate in that for several years now there have been few accidents involving children.

Let all of us strive to keep it that way.

And a last reminder to motorists--keep your car in good mechanical condition; do not tolerate faulty brakes; don't be impatient and remember it is better to be late to work or to keep an appointment than to take a chance on a collision that may result in injury or death.

On Second Thot

By GLENN F. LOGAN

The heat wave baking the mid-west has produced many odd sights as people tried various means to get relief.

Knobby knees, plunging necklines, flaring midriffs and various stages of dress and undress had brought this corner to the conclusion that it had seen practically everything until Wednesday of last week.

That was the day Jeff Throttlebottom ambled into the office. If you can recall in this siege of spiraling temperatures--Wednesday of last week was a sizzler, around 100, it was, so when we saw Jeff we were just a bit startled.

He was wearing a large straw hat of the type one used to see worn by farm hands at work in the fields before they adopted the bare-head, bare-torso style of working costume--having learned that one can acquire as fashionable a tan riding a tractor as a convertible, but at slower speeds of course. Such a hat was not surprising but his outer covering is not seen everyday, for from chin to ankles he was wrapped in a buffalo robe. He also was wearing felt boots.

-0-

"A small tribute to my grand-father's marksmanship," Jeff remarked, as he shucked the hat, robe and boots and flopped into the most comfortable chair and mopped his head and face with a turkish towel that apparently also served him as a shirt.

"These trappings," he explained, waving at the huge hairy robe and the steaming felt boots, "are useful in two ways in combating this scourge of heat."

"In the first place they serve to keep the sun off my body and in the second place one feels so cool and relaxed after taking them off...like the removal of tight shoes the discard of this bison pelt, et cetera, et cetera, affords a relief that one cannot even get from air conditioning."

"As a matter of fact there are many persons who would like to have a robe like mine to keep warm in some of these places that are air conditioned to the point where they are practically cold storage plants."

"I don't suppose you have a drop of rum handy? No?" and then more hopefully, "A trifle of gin perhaps?--Too bad, too bad. Both are excellent remedies in combating heat fatigue and boredom in the tropics."

Someone offered a coke but Jeff declined with a polite shudder.

-0-

He mopped some more and sighed contentedly.

"You have it very nice here," he said. "I don't believe it is ever 89 or 90. Quite comfortable when you come in from the outside and not too great a change when you have to go out."

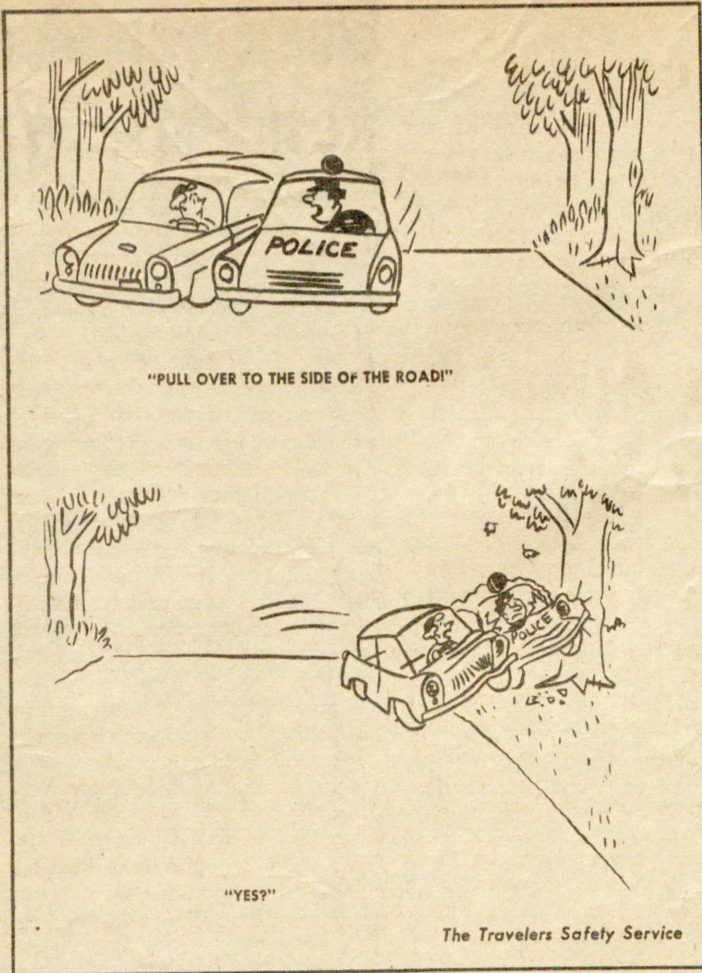

"Really tho," he went on, "we are becoming soft and spoiled. We have 10 days or so in the row of temperature in the 90's and we pant and groan and finger the panic button."

"Our summers were hotter when I was a boy than they are now and I remember clearly that my grandfather--the one who killed this buffalo but whether he shot it, choked it or talked it to death is somewhat hazy in my mind--used to say that the summers were hotter when he was a young man too."

"I remember," Jeff went on, "of him telling me about a summer when it was so hot in the Southwest that the gila monsters

The Dishonor Roll

by Jerry Marcus

and other lizards used cactus leaves for parasols if they ventured out in the daytime.

"As a matter of fact the heat struck the Arizona desert so fast, and so intensely that it liquified the sand and the alkali oxides. It was at the time when the desert blooms and the temperature went down as fast as it had come up and the cooling turned this liquid into glass. The change caused thousands of the bright colored blossoms to become imprisoned and my grandfather said it was quite a sight."

"Ever a man to take advantage of an opportunity he cut up several acres of this product into squares, rectangles, star-shapes, balls and crescents. After polishing the same he sold them to people for display on parlor tables and what-nots. Some of the larger pieces were utilized as doorsteps and you can still see them around today in antique shops."

"My grandfather," Jeff continued, "said that it was not only hot in the Southwest but was unusually torrid all thru the country."

"The heat was so great that in Boston it brought peace to a section where the people had been feuding and fussing for a generation, and also coined a phrase."

"It was in a neighborhood where practically all of the houses were made of sandstone. Well sir, day after day the mercury shot up into the hundreds until finally the same thing happened there as did in the desert. The sandstone melted and formed into glass making the walls so clear that one could look right thru a house."

"Persons who had been throwing donkeys at each other quit the practice because the great damage that could be done to a home and a saying sprung up--people who live in glass houses shouldn't throw stones."

"Well, goodbye. See you when it frosts."

And putting on his hat, and putting on his felt boots, and wrapping himself in his buffalo robe, Jeff tottered out into the sunshine and went wavering down the street.

Since an island-wide dog vaccination drive in 1958, there have been no human deaths from rabies on Formosa.

Hints For Homeowners

JAMES FIZZELL
ASS'T. FARM ADVISER

Many garden enthusiasts have wished they could grow "football mums" in their garden. The large mums of the commercial trade bloom too late, and are killed by frost before the flower is produced.

This spring, a true giant garden mum was introduced to the public under the name of Harvest Giants.

These are truly large football mums, four to seven inches in diameter with full, deep flowers.

These are ten varieties listed for spring release:

Full Moon - 5-6 inch, creamy white, blooms late September.

Gold Dust - 4-5 inch, gold yellow, blooms prolifically from early September until frost.

Indiana Summer - Red-bronze, over six inches in diameter.

Jack-O-Lantern - 4-5 inches, well-rounded, yellow flowers, strong stems.

Pink Haze - early, light pink, 5 inch flowers.

Pumpkin - warm apricot, and the most compact of all; flowers 5 inches across.

Redskin - Dark red, 5 inch flowers on sturdy stems.

September Song - orchid rose, will bloom very early if disbudded.

Touchdown - the giant of all. Up to 7-1/2 inches in diameter, rose colored, but latest of the ten. Should be in full bloom in early October in this area.

White Frost - Pure white, 5-6 inches in mid-September.

Unlike most garden mums, the Harvest Giants have the delightful habit of staying in bloom over a long period of time. Picking the open flowers helps the development of side buds. Most of the varieties will continue to bloom even with light frost until a hard freeze.

Harvest Giants develop a bushy plant, 1-1/2 to 2-1/2 feet tall. Some of the varieties may need to be staked if they are started early. These varieties are early. They will all bloom before mid-October in a normal year. A very hot August will tend to delay bloom, as with all mums. Although these plants will stand freeze, gardeners in early frost areas should use the earlier varieties.

Harvest Giants do their best in full sun. Insufficient light cause excessive elongation making the stems weak, and also can delay bloom. The plants should be pinched to keep them compact, and disbudding will increase flower size.

Harvest Giants are on display at your local nursery now. Stop by and see them, or better yet, take a plant or two home. Be the first in your neighborhood with football mums growing in your yard.

PFC Jack Newton To Serve At Base In Greenland

MRS. MARGARET SEMMLER
Te. 5561

PFC Jack Newton who is stationed at Arlington, Va., left recently for a three month duty at Camp Century, Greenland. This is his second trip to the camp and hopes to be back in the States by Christmas. His wife is staying in Arlington where she is employed.

Mr. and Mrs. Roy Newton entertained the latter's parents, Mr. and Mrs. Harry Krieg, brother Lawrence and family and sister Gloria all of Harvard, Ill., last Sunday. The birthdays of Mrs. Krieg and Roy Newton were observed.

Utility Firm Declares Stock And Cash Dividend

Directors of Commonwealth Edison Co., at a meeting held last week (Sept. 7) declared a 2-4/10 per cent stock dividend (three shares for each 125 held) on the common stock in addition to the base quarterly cash dividend of 50 cents a share, Willis Gale, chairman, announced.

The action of the board, which is subject to Illinois Commerce Commission's authorization, continues the regular cash and stock dividend policy inaugurated two years ago. The previous stock payments were 2 per cent in 1958 and 2-1/3 per cent in 1959.

Under this policy, Mr. Gale stated that the company issues a supplementary stock dividend each year for approximately the full amount of its earnings on the common stock in excess of the base cash dividends.

The new shares to be issued for this year's stock dividend are being capitalized at \$64.58 each which, at 2-4/10 per cent, is equal to \$1.55 per share of the outstanding stock. This amount, added to \$2.00 of cash dividends, will bring the 1960 charges for dividend distributions on common stock outstanding all year to \$3.55 per share. The 1960 earnings per common share to be outstanding at the year-end are estimated at \$3.85.

The cash and stock dividends are both payable to stockholders of record Sept. 22, 1960. The cash dividend will be paid to stockholders Nov. 1. The 453,968 common shares comprising the stock dividend will be delivered on Nov. 1 to Continental Illinois National Bank and Trust of Chicago, as agent for the stockholders. Allowing time to carry out stockholders' instructions, it is expected that the bank will distribute certificates for full dividend shares about December 1.

No fractional share of dividend stock will be issued. A fraction must either be rounded out to a full share or sold through the bank. A stockholder also may have the bank sell all or part of his full dividend shares.

The company's directors also declared the regular quarterly di-

Pupils Using Vehicles For School Must Have Driver's Licenses

With the opening of the fall school term, Secretary of State Charles F. Carpenter today reminded parents of teenagers that a driver license is required by law for the operation of any type of motor vehicle, whether it is to be used for transportation to and from school or for any other purpose.

In addition, Mr. Carpenter pointed out, the law establishes 16 years as the minimum age to qualify for a driver license. In certain hardship cases, he added, a restricted permit, limiting the use of a motor vehicle to certain hours, areas and routes, may be issued to 15 year olds.

It makes no difference, Secretary Carpenter said, whether the vehicle has two wheels or four, whether it develops 2 horsepower or 200, no one can operate it legally on public thoroughfares unless he holds a valid driver license.

The 1959 session of the General Assembly repealed a provision of the law which permitted persons 14 years of age and older to operate motor scooters and similar types of motor vehicles without holding driver licenses,

and followed up that action by refusing to approve proposals for special types of licenses for the operation of those types of vehicles by persons under 16 years of age, Secretary Carpenter said.

As the law now stands, it is

illegal for anyone to operate any kind of motor powered vehicle without a driver license and, except in unusual cases, no one can obtain a driver license unless he is at least 16 years old, Secretary Carpenter said.

4 Local Employees Attend Telephone Summer School

Four employees and officials of the Illinois Bell Telephone company in the local area have attended sessions of the company's fifth annual "School for Management" on the Knox College campus this summer. About 460 employees have lived and studied at the college during an eight week period ending September 2.

In charge of the management school are Frank W. Braden, general personnel manager of Illinois Bell, and Floyd Brown, personnel supervisor, both of Chicago. The school was held on a college campus for the first time as an experiment five years ago and has

been held their ever since. The program features the case method approach to management problems.

A rigorous business education program with meetings every weekday from 7:30 a.m. to 4:40 p.m. is intended to provide personnel with training in solving managerial problems and thereby improve service for the company's customers.

Attending from Mokena was H.B. Optiz, 60 Parker street; C. R. Smith, New Lenox, R#1; Frank W. Ryan, 18011 Thomas Pane and Robert H. Bamford, 4700 West 184th street both of Tinley Park.

Homer Emmerson Reeds, Former Residents, Wed 50 Years

An error was made last week in the time of the auction to be held at the Otto Konow Sr., farm on Oct. 1. It will begin in the early evening, not in the afternoon, as stated. It is a Homer church benefit.

The Northwest Homer Fire Auxiliary will sponsor a smorgasbord supper at the Fire Barn on Saturday, Sept. 24, beginning at 5 o'clock. Tickets may be purchased from members or at the door.

Rev. Elvig, George Burcham Jr. and Lee Phillips left Friday morning to attend a Youth Conference of the Central Association of Congregational Churches at Rockford, Mich. They returned Saturday evening.

The Donald Aspel family spent the Labor Day weekend with relatives near Princeton.

Bonnie Mlynarik, a 1960 graduate of L.T.H.S., has enrolled at Northern Illinois University in DeKalb. She will major in English and physical education.

Mr. and Mrs. Martin Mlynarik Jr., who have been living in Lockport, will both be students at Purdue University this year.

Beverley Burcham, who celebrated her golden birthday Thursday, Sept. 8, was very pleasantly surprised by eight of her young friends after school. A weener roast with birthday cake and candles finished out a happy afternoon.

Mr. and Mrs. Glenn Reiter of Parker Rd. and 159th are the parents of a daughter born Sept. 1 in St. Joseph's hospital.

Homer schools are off to a good start with more than 500 pupils at Reed on 143rd St., approximately 150 at Homer Consolidated on North Cedar, and several going to St. Dennis in Lockport and St. Jude in New Lenox.

Mr. and Mrs. Emerson Reed of Rte 3, Joliet, celebrated their golden wedding anniversary Sept. 2 with a dinner party at Little Bit o' Sweden near Aurora. The Reeds formerly lived in Homer twp. on what is now the Niles Cagwin farm; also Mr. Reed lived here as a child and attended Barnet school. They have three sons Henry, Clyde and John, and two daughters, Mrs. Lillian Bleck and Mrs. Violet Wright, both of Aurora.

READ PSALM 119:97-104
The statutes of the Lord are right, rejoicing the heart: the commandment of the Lord is pure, enlightening the eyes. (Psalm 19:8)
My forty years of Christian experience have proved to me that the Bible is the chart of life.
As a teenager I had felt the need of a true chart and compass for my life in this world of uncertainty. How grateful I am that through God's mercy I have found in Christ the true captain of my soul and in the Bible the true chart of my life!

Thru the tempests of my life my Captain has stood beside me. Whenever darkness encompassed me, my soul was enlightened by the Word of God, and I was led safely to victory.

More than once when brought to the very brink of death, I stood on the promise of God and was restored to health and strength.

The Word of God has inspired, strengthened, and guided me when all else failed. I have been troubled much, yet as I have knelt before God, the Holy Spirit has been my helper. He has brought understanding and comfort, strength and guidance, as I have turned to the life-giving Word of God.

Prayer: We thank Thee, our father, for Thy Word, which is the true chart and compass of our lives. Help us to put our trust in Thee and believe Thy word and be guided by it. In Christ's name. Amen.

Can Apply Now For Sewer Permits At Frankfort

Frankfort residents may now apply for permits to make connection with the new sanitary sewer system.

At a meeting of the village board last week two ordinances were adopted dealing with this phase of the improvement.

There are numerous provisions, which one may wish to read and may do so at the office of the village clerk, but essentially they contain two major points:

(1) Home owners and heads of business or commercial firms must apply for a connection permit. No connections may be made without such permits and the work must be left open until approved by the inspector, Victor Eisenbrandt.

(2) Connections with the mains property may be done only by those who are licensed, bonded and carry property damage and public liability insurance in the sum of fifty and one hundred thousand dollars. The license fee is \$5; the bond is set at \$1,000.

Property owners may install the tiles or pipes from their buildings to the property line without bond or insurance but to complete the connection with the main they must either comply with the terms of the ordinance or hire someone licensed and bonded to complete the job.

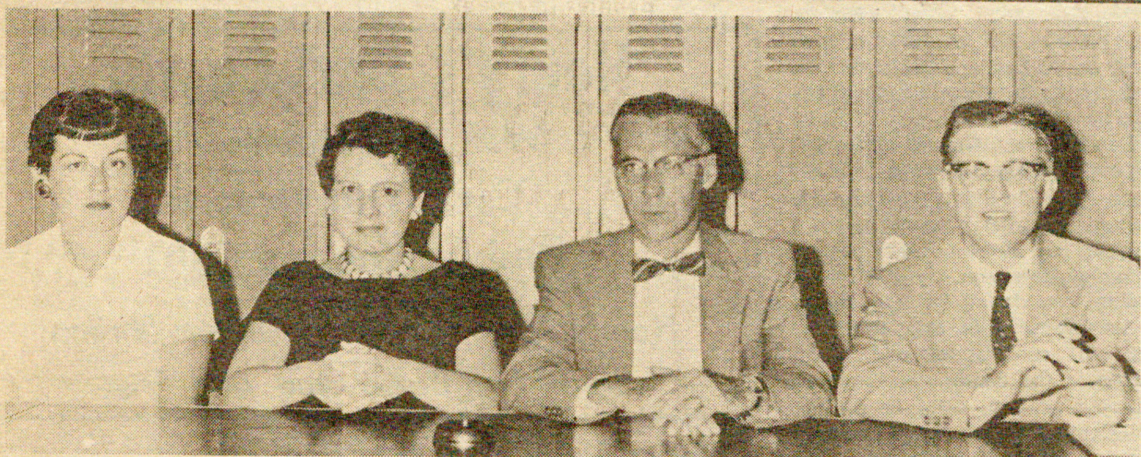

The village board adopted these ordinances so the village may have a record of all connections and to protect residents as well as the village from damage or injury which might result in joining the house connections to the mains.

Permits may be obtained from Village Clerk Walter Pfaff at the village hall. Contractors who plan to make sewer connections must first obtain licenses, post bonds and show they have the necessary property damage and public liability insurance. It was stated by village officials.

Engineer Robert Hamilton said this week that the contractors--sewer and sewage treatment plant--expect to have their work completed by month's end. The treatment plant is expected to be in operation by Oct. 1, Hamilton was informed.

Penalties in the ordinances range from \$10 to \$100 and each day of violation is to be considered a separate offense.

A copy of the application blanks for connection permits appears on this page (right).

ST. JUDE PTA held its first meeting of the current school year last Friday evening at the parish school in New Lenox. New officers of the group elected at the close of the school year presided over their first meeting last week-end. Left to

right they are: Mrs. Irene Johnson, vice president; Mrs. Lorraine Sider, secretary; James Noolan, president and Robert Wysock, treasurer.

Can Tosser Fined \$25

Frankfort police made 42 arrests in August, mostly for traffic violation, according to the report of Chief Frank Simmons.

Two arrests stemmed from a beer can. James Hancock, of 125 N. Quincy st., Bradley, tossed a beer can out in the street as he rode along in a car driven by Earl J. Hubert, of 297 E. Mulberry, Kankakee. The latter was charged with transporting an unsealed alcoholic beverage. Each was fined \$25 and costs by Police Magistrate Herbert Folkers.

Magistrate Folkers reported collecting \$280 in fines in August for offenses committed within the village limits. He also reported on fine collections dating back to April. They are:

April \$234

May 210

June 195

July 157

August 280

Total \$1,076

Chief Simmons also reported that he has requested the state highway department to post school zones on U. S. 45 with signs calling for a reduction of speed to 20 m.p.h.

The chief said he had been assured the highway department would follow his suggestion and advance the stop sign at the north-

east corner of U. S. 30 and 45 about 30 feet, thus bringing it closer to U. S. 45. The sign is back so far now, the chief said, that vision of drivers going west on U. S. 30 is somewhat impaired when he looks north or south. As for the drivers on U. S. 45 they think the Route 30 driver is running a stop sign. So full of indignation they yell and cuss while the motorist on 30, believing himself to be the victim of an unprovoked attack is resentful and also becomes indignant, and there is not telling, Simmons pointed out, how far the consequences of such feelings may go--they could cause an accident.

ST. JOHN'S UNITED CHURCH OF CHRIST

The congregation voted recently to have confirmation instructions for two years instead of one. All 8th graders will be the last class with one year instruction and will be confirmed on Palm Sunday in 1961. Seventh grade pupils will also start with this class but will receive the two years instructions.

The Men's Club will be host to the Frankfort and Manhattan's Men's club in the church this Thursday evening, Sept. 15.

Grace Koehler 64, Homer Twp. Dies Suddenly

Mrs. Grace M. Koehler, 64, nee Ross, died suddenly Friday, Sept. 9 at her home in Homer township. She was the wife of Christel D. Koehler, retired contractor.

She was the daughter of the late William and Elizabeth Ross of Lockport and was born Feb. 24, 1896 in Homer township, where she resided all her life.

She was a member of the Orland Park Christ Lutheran church, the Homer Volunteer fire department auxiliary and the Mothers' Club of Homer school district 330.

Her only survivor is her husband.

Funeral services were held Monday, Sept. 12, from the Goodale Funeral home, Lockport with the Rev. Adolph Lach, pastor of the Christ Lutheran church, officiating. Burial was in Brooks cemetery.

Benefit Dance

Attracts Crowd

The dance given by the New Lenox Lions club at Goodings Grove last Saturday to raise funds to aid a family that lost its possessions thru fire, was well attended but the committee in charge does not yet have a complete report on the ticket sales.

The William Sanderson family, that lived on Golf road, near Woodruff golf course, lost their home and its contents several weeks ago when the structure caught on fire.

The New Lenox Lions hoped to raise sufficient money to erect a shell on the premises that could be finished by the owners but if not successful in that they have another plan thru which the family can be housed.

The grand prize awarded at the dance, an electric organ, went to John Gulden-zoph, New Lenox township.

Seek Toys For New Kindergarten

The Mokena's Womens club, who are sponsoring the kindergarten which will open, Monday, Oct. 3 are seeking the following good used toys that other children may have outgrown and would help to equip the kindergarten; the toys are; Play Skool toys, beads to string, trucks, trains, balls (slightly lar-

ger than a soft ball), bean bags, puzzles, dolls, doll houses, paper dolls, doll buggies, cupboards, stoves and blocks (carpenters). If anyone has any of the above items and wishes to contribute them you are asked to call Mrs. Kenneth Bressler, Mokena 5536 for pick up.

Would Use Gas Tax To Drain Street

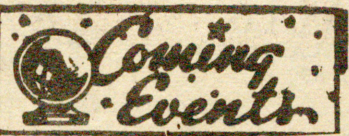

A bid of \$3,270 for building W. Wood street up to Cedar road, has been accepted by the New Lenox village board and upon formal approval by the state department of highways a contract will be awarded for the job to John L. Guilden-zoph, of New Lenox. The money will come from the village's share of the state motor fuel tax fund.

Inasmuch as the bid comes within the estimate arrived at by state engineers early O.K. of the project is expected.

The village also will be able to get money eventually from this source for some work on a 200-foot extension to Haven ave. and on E. Wood from Cedar to Cooper.

Second street and Pine street have been designated as arterial streets so the village will now be able to apply motor fuel tax money on a drainage system that would clear up surplus water in the vicinity of the intersection, especially after hard rains.

The village had received bids on the proposed drainage system the latter part of August that were within the \$9,000 estimated cost but the village appropriation for the job is \$5,000. With a portion of the cost being met from motor fuel tax it is the hope of the board that the project can be carried out. The bids received Aug. 22 were tabled.

Browsing Through The Cold Stove League

BY DEAN DALLAS
SEMMLER PRESS SPORTS
EDITOR

This is the last column for yours truly. Perhaps, from time to time there may be some comment, but the weekly -- or almost weekly column, will conclude with this publication date.

It has been interesting for this writer -- we hope that it has been of some interest to you.

Someone may step in and add some zest and more life and interest to this attempt at writing the feature column.

If we had readers -- thanks for your kindness in reading.

Before we close, however -- let's have a gander at some football facts.

Carl Sandburg high school -- that is the Eagles -- with tongue in cheek are beginning this football season with high hopes.

There are never any wild predictions at this school on Orland Bluff, but they are happily awaiting for the action to step-up and are expecting to make much excitement for the SWS Conference.

The Eagles are still smarting from the 6-6, final game tie with Bremen, which knocked them out of the league crown or at least a share of it with Rich.

However, they are expecting to bring it home for the first time in the history of the school.

Coach Joe Devine is working hard with a veteran crew. A couple standouts transfer students seem to give the rosy picture some more reality. They are counting on great things from these new students.

Last year, Devine's crew was one of the best in the SWS and a great game by Bremen kept them from cashing in and going on to the league top.

Devine has his backfield positions all filled with veterans, with exception of quarterback, Senior Ed Brown will fill in at that spot. He is southpaw passer. Many feel that he has the potential to make the Sandburg fans forget any previous quarterback. We will have to see.

The Eagles will be tough.

They have quite successfully filled gaps in the line cause by the June graduation. The Sandburg line maybe just a bit green at the start of the season, but it should be just as tough as last year's aggregate come the season's finale.

They led the Conference in defense last year and may well do it again for this coming season.

Devine believes that if you can keep that other team from scoring it is a big assist toward your winning and I guess we will agree with him.

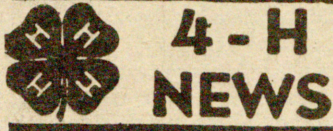

Defense is important stuff with him and you will see plenty of it.

Offensively the Eagles should be stronger. They should score more than last year and that just adds up to a better record.

They will find the road rugged. Don't forget -- there are seven other teams who have improved somewhat.

Perhaps one has gone down hill, but the Eagles just might appear to be near the top of the heap in the pre-season predictions.

Yet, much depends on the line. If they come through for Devine he will get the crown. That is great big "If" and it might not come true.

ALPINE GIRLS

Election of officers was held for the Alpine Girls 4-H club when they met in the home of Joan Stellwagen, president, Tuesday, August 30. Officers for the coming year include: Janice Kneriem, president; Janis Gee, vice-president; Barbara Strassenburg, secretary; Diane Coleman, treasurer; Joan Stellwagen, reporter; Carol Bettenhausen, recreation; Kay Maue, Home Economics Federation delegate; Marie Meire, alternate; Elaine Yunker, Agriculture Federation delegate and Sharon Lauffer, alternate; and Elaine Yunker, junior leader.

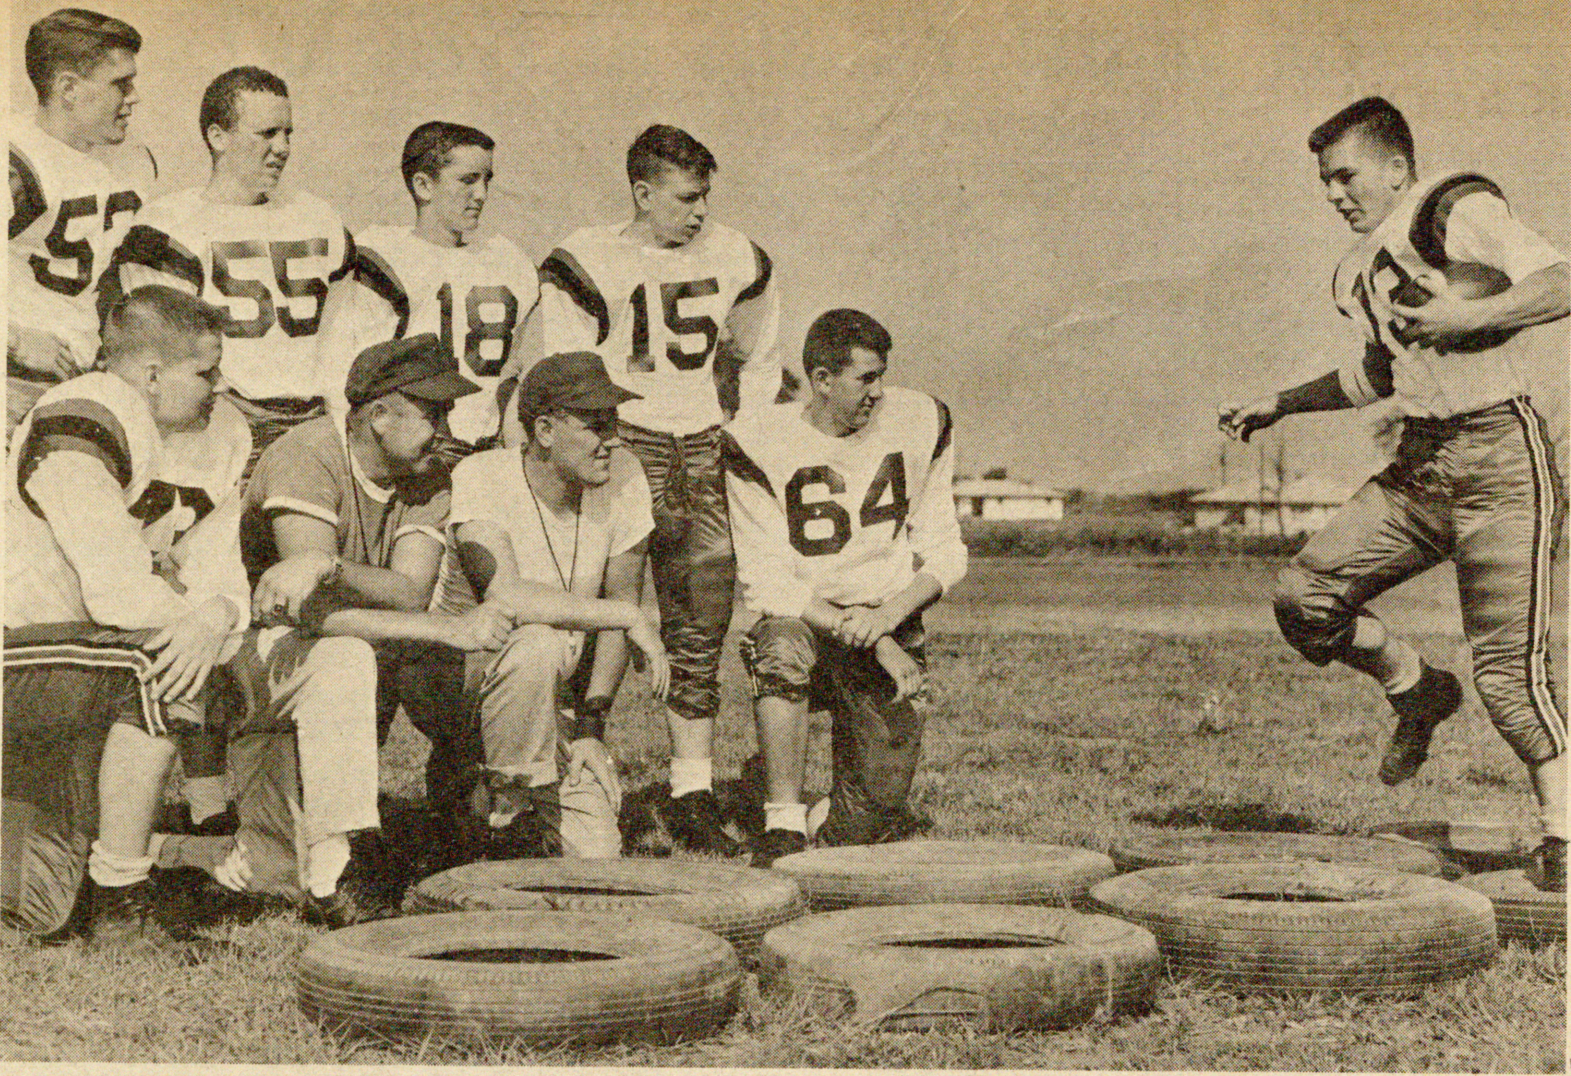

Routine reports were given following the pledge to the flag. Plans were discussed for the idea exchange at the October meeting of 4-H Federation.

The meeting was adjourned with the 4-H pledge. The members enjoyed covering jewel boxes with mosaic tile.

Refreshments were served by Betty and Joan Stellwagen.

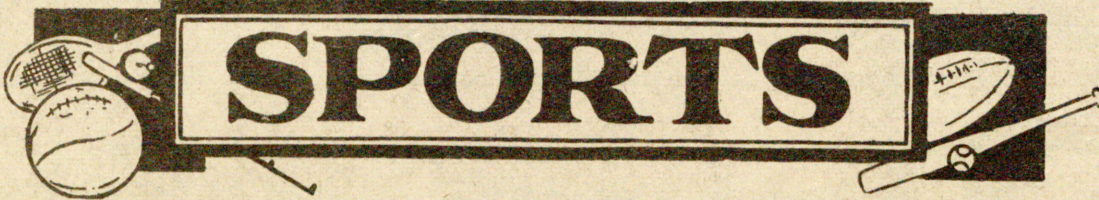

White House Jinx

The man elected President this year will be defying a 120-year-old jinx. Since 1840, the President elected every 20th year has died in office, six in all. Three of the six were assassinated.

AT LINCOLN-WAY Paul Malakar exhibits speed and agility as he runs through the tires in practice at Lincoln-Way Community high school, New Lenox. Looking on (kneeling) are other junior hopefuls Skip Minger, Coaches Gene McGivern and Ray Page and Norm Bradley. Standing are

Johann Reinhard, Al Hauser, Bill Delaney, and Leo Barnes, all juniors on this years varsity team. The first game of the season will be played at Lincoln-Way on Saturday Sept. 17 against Lemont. (L-W Photo)

Knights Open Grid Season Against Lemont On Saturday

Lincoln - Way's surprising Knights of 1959 will be trying for another Cinderella season. They open play Saturday, Sept. 17, as hosts to Lemont.

The Lashmet charges of Lincoln-Way lost two key linemen in graduation and will be striving to fill those gaps.

Last year the Knights shocked the entire SWS Conference with a smashing victory over the unbeaten Rich Rockets. Then went on to a most successful season. They lost numerous contests, but no one really gave the Knights a beating. They were in every ball game until the

final whistle. But this is chapter 1960. Guards are the big problem for Jonas Lashmet and have been in the early season.

He has two willing and eager workers in the offensive guard position, but just how tough they will be in competition remains to be seen. Lashmet is certainly not optimistic about his team's changes this season.

Doug Heisner and Ron Badten seem to have the inside track on the open guard position at the moment. Both are working hard, but Bill Seavertson is a hard man to

replace -- Lashmet has found out.

Only one offensive position is not decided by this Thursday evening -- that is left tackle. John Charvat and John Grez are battling for this position. Charvat seemed to get the nod and then Lashmet would not declare himself for any of the fellows.

The backfield should be strong again this year. "Skip" Kruzich, quarterback for the past two seasons on the Red and Black, is back and calling the signals in the practice session.

Dan Fenn and Wayne Lauffer appear to be two strong halfbacks. Fenn should be plenty tough to stop. Ron Miller will probably get the starting nod at the fullback post on Saturday afternoon.

The remainder of the lineup looks somewhat like this: Ron Yunker will start at left end. John Kropp is the center for Lashmet on opening day. Big Ed Smith, All-Conference tackle from last year's squad, will be at right tackle. Bob Lichtenwalter will be the right end.

Only twenty-three reported for varsity practice and so Lashmet will have to go with a thin line or reserves thru out the season. Last year there were just twenty-two on the varsity squad.

Lashmet feels that his backs are about ready to meet the SWS Conference foes, but he states: "Our line has a great way to go. Unless that line is going well your best backs in the world are not going to get more than a couple of yards."

Yes, "Joney" -- that is just too true.

Lincoln-Way should not be a pushover for any squad in the SWS this season. Those Knights should not be counted out. The fans and those who care are looking for Lashmet to get this line moving and developing by the middle of the campaign.

So don't count victories at the Knights expense -- any Conference foe. It seems that their days as the league doormat are gone. They made a great start in football and basketball last year and are hungry to make an even better record in the Conference.

Assessed Fines

Driving too fast for conditions cost George Schwartz, Mokena, a \$10 fine and \$5 costs in Mokena police court last Thursday. Police Magistrate, John Balaz levied the fine on Schwartz's plea of guilty. He was arrested at 2 a.m., Aug. 28 when he rounded the corner at Front and Wolf Rd. at 30 miles per hour.

Gerald M. Guether, Elmhurst was fined \$6 and assessed \$4 costs for failing to obey the stop sign at Wolf Rd. and Front street Aug. 28 at 1 a.m.

"Y" Opens Class To Peel Off Pounds

"Slim for Fall" is the theme of the weight reducing group which began last Monday, Sept. 12, at the Southwest Suburban YMCA, 94th and Knox in Oak Lawn.

Under the direction of Miss Gerry Moynahan, fashion stylist, local women will have an opportunity to lose weight, establish will power, improve health, personal charm and happiness through an eight week diet club program.

Robert Williams, executive director of the Southwest Suburban "Y", said that women whose plumpness is not pleasing can do something about it in the calories club thru the use of simple calorie charts and sensible menus, and will be able to face life with a new set of eating habits that will preserve the gains they have made.

The class also will feature hair arrangements and makeup, how to walk gracefully and how to appear poised and graceful with their new figures.

The director, Gerry Moynahan, stated that past members has lost from 10 to 165 pounds and the average loss is 24 pounds during the eight weeks of instruction.

The weight losing program is fun and entertaining as well as educational and uses only tested and proved methods and -- what's more -- ways to stay slim.

Any woman wishing to join may enroll by calling the Southwest Suburban YMCA at Garden 4-8100.

Palos-Orland "Y" Ends Summer Swim Program

The Palos-Orland YMCA concluded it's final summer instructed swim program at the new Carl Sandburg high school pool recently. Parents and friends were invited to watch the final class session. At the completion of the class, award cards were presented to the children.

There were 12 Jellyfish awards, 10 Tadpole awards, 15 minnow awards, 5 fish awards and 3 flying fish awards.

Youths receiving awards from Orland Park were: Ricky Felber, Jeff Arp, Tom Little, Richard Searls, Scott Bischoff, Kenneth Flory, Deborah Steeples, Randy Koldemhoven and William Rietveld.

The next series of instructed swim will begin in early October on Friday evenings.

Village Seeks

Bids On Gasoline

The New Lenox village board is asking for bids on gasoline for use in municipal vehicles. Police Commissioner Steven McGovney and Street Commissioner Keith Hossack recommended the village following its procedure of the past year and that bids be based on a discount on the posted pump price. Trustee Chester Bowman voted against the proposal. He thought the board should consider the possibility of seeking bids on a firm price that would prevail thru the year. This was advocated, he said by one of the local dealers.
